Subject: RE: Former Westinghouse Facility Compton, California

Carmen,

We'd like to propose the following submittal dates for the Risk-based Cleanup Plan for the former Westinghouse facility in Compton:

Draft Cleanup Plan approach March 2
Draft Cleanup Plan application May 18
Final Cleanup Plan application June 22

Please let us know if this is acceptable.

Thanks,
Dave

Subject: Former Westinghouse Facility Compton, California

Hello Russ and Dave,

Thank you for making time to have the call today regarding next steps for the former Westinghouse facility in Compton, California.

Regarding the schedule that we talked about, I was thinking about the schedule should encompass the entire Phase 1 project: cleanup of PCBs in the interior of the buildings. Please propose a schedule that includes the following elements among others that you believe should also be included.

1. Date when CBS submits the draft PCB cleanup approach (this is not the application under 761.61(c))
2. Date when CBS submits the full draft risk-based PCB cleanup application for EPA review
3. Date when CBS submits the full final risk-based PCB cleanup application for approval

Tool 4 in PCB FAST is designed to help developed the application.

Thank you for your courtesies.

Best,
Carmen
